

**UNITED STATES COURT OF APPEALS  
FOR THE DISTRICT OF COLUMBIA CIRCUIT**

ENERGY MARKETERS OF AMERICA,

Petitioner,

v.

ENVIRONMENTAL PROTECTION AGENCY,

Respondent.

Case No. 22-1038

**PETITIONER ENERGY MARKETERS OF AMERICA'S  
NONBINDING STATEMENT OF ISSUES**

Pursuant to this Court's order of March 2, 2022, petitioner Energy Marketers of America ("EMA") submits this Nonbinding Statement of Issues in the consolidated cases challenging the final action of the United States Environmental Protection Agency ("EPA") entitled Revised 2023 and Later Model Year Light-Duty Vehicle Greenhouse Gas Emissions Standards, published at 86 Fed. Reg. 74434 (Dec. 30, 2021). The issues presented are (1) whether EPA exceeded its statutory authority under Section 202 of the Clean Air Act by setting greenhouse gas emission standards for light-duty vehicles that effectively mandate electric vehicles, and (2) whether EPA's cost-benefit analysis was arbitrary and capricious because, among other reasons, EPA failed to conduct a

lifecycle analysis to account for the greenhouse gas emission impacts of electric vehicles.

Dated: April 1, 2022

Respectfully submitted,

/s/ Eric D. McArthur
